PROFESSIONAL PROFILE

User-focused Web Developer with a passion for creating fully functional, aesthetically pleasing web presences. I enjoy leveraging my background in church management and tech-production to provide a unique perspective on how end-users interact with websites and software platforms.

EXPERIENCE

All Saints' Episcopal Church | Reisterstown MD | 2013 – 2019

Director of Church Communications | Tech Minister

After years of shrinking attendance and soft financial giving it was determined that this local church was in needed a transformational change. I was part of a newly created Tech Ministry that is responsible for the oversight of branding, web technology and digital communication.

Through the efforts of our team we were able to renew this 150 year old institution as they embraced the use of digital media, and adapted their entire organization including the worship experience to include its use. Since the adoption of this initiative there has been a measurable increase in weekend and especially newcomer attendance, overall giving, attraction and retention of volunteers and empirical data indicates a unanimous receptivity and enthusiasm for the directive.

Duties

Maintain and operate audio/video equipment, produce sermon-specific media and run live projector prompts to guide and enhance sermons. Record and live-stream sermons. Process audio and video for podcasts, YouTube, etc.

Licensed by the Bishop of Maryland as a Lay Preacher and Lay Worship Leader: lead regularly scheduled daily offices; Morning Prayer, Noonday Prayer, Evening Prayer, and Compline. Responsible for planning, conducting and reporting the service and work closely with others involved e.g., musicians, readers, ushers, and to make sure that the worship service is in proper order.

EXPERIENCE

Encore Media Pro and JD the DJ Inc. | Glyndon MD | 2002 – 2016

Owner/Operator

At the dawn of the digital age I was able to turn my passion for music and video into the formation of my own business that pioneered the local industry use of all digital media. I employed an interdisciplinary skill-set to deliver impressive audio-visual experiences utilizing the latest technology to produce high-quality, cost-effective multimedia solutions and on-site music and video services.

Both of these companies I formed worked with private, corporate and nonprofit clients to produce video presentations and with a concentration in the wedding industry, I regularly performed at over 40 weddings per year. These business were sold in 2016 to concentrate on the initiative at All Saints'

MBNA America | Hunt Valley MD | 1996 - 2002

Credit/Risk Analyst

Consistently ranked as a top performer screening individuals and businesses for loan eligibility. Led a team that analyzed market trends to make informed lending decisions and mitigate losses.
